

Location:

Houma, LA

Date of Application:

October 2007

Market:

Oil and Gas (Offshore)

Substrate:

Steel

Surface Prep:

SSPC-SP 5 (White Metal Blast)

Exposure:

Exterior Weathering - severe industrial
- seacoast and chemical environment

Square Feet:

15000.0

Medco Mustang Island 758B

Area Coated: Exterior Coating

- First Coat: Carbozinc 11
- Second Coat: Carboguard 893
- Third Coat: Carbothane 134 HG

Project Description:

A new offshore deck and boat landing was constructed to replace an existing structure for this location. The previous deck and boat landing was removed and the new structure was set in place. Please note that we did not paint the existing deck support structure.

Coating Selection Explanation:

As mentioned the previous deck and boat landing was removed and the new structure installed. A standard three coat carboline system was chosen for this application because of its proven history of performance for this type of environment.

Additional Information:

Both owner and customer were very satisfied with this project.
