

Location:

Yazoo City, MS

Date of Application:

April 2008

Market:

Food and Beverage

Substrate:

Steel

Surface Prep:

SSPC-SP 12 (WJ-2) (Water Jet Very Thorough to Substantial Cleaning)

Exposure:

Exterior Weathering - mild - urban or rural exposure

Bunge

Area Coated: Exterior Coating

- First Coat: Rustbond
- Second Coat: Carbothane 134 HG

Project Description:

Overcoating large Bunge tank with mildew problems located on the banks of the Yazoo River.

Coating Selection Explanation:

The system of Rustbond and Carbothane 134 HG was chosen for the outstanding bonding characteristics of Rustbond combined with the durability of Carbothane 134 HG urethane.
