26000.0

## Grain Products Processing Plant

**Area Coated:** *Steel & Concrete - interior, grain processing*

**Project Description:**

Carboline Representative:

Paul Macdonald, Protective Coatings Manager, NSW

Project:

An ongoing supply contract to maintain & refurbish concrete flooring, structural steel, machinery and pipework.

Carboline won the supply contract due to our product

range and technical support. We now have been asked to provide indicative budgets for supply and apply for each financial year. Maintenance painting will be ongoing into the foreseeable future.

**Coating Selection Explanation:**

A range of coatings are being supplied into this project. These coatings include Carboguard 635, Carboguard 690, Carbothane 134HG and Carboguard 1340.

Exposure conditions:

Splash & spillage of chemicals & subject to elevated temperature exceeding 50 Degrees Celsius.
