Abitibi Recycle Bins

Area Coated: Exterior Coating

- First Coat: Carbothane 8812
- Second Coat: Carbothane 130 Clear Coat

Project Description:

Shop applied to recycle bins for newspaper/magazine collection sites.

Coating Selection Explanation:

Abitibi was using a two coat Sherwin Williams system.

Primer: 2.8 VOC Epoxy Primer

Topcoat: Polane polyurethane

Switched to a one coat system.

Additional Information:

Due to the need of long lasting color retention, we will be adding a coat of Carbothane 130 clear.
