

JULY WINNER

70 Red Buckets of Surprises!

“ I wanted to share a story of how we’ve been using Plasite 4500 FS on several tanks for one of our biggest customers. Initially, the customers specification didn’t have Carboline on it at all, but with some persistence, the rep was able to get the product specified for a project. We combined the use of Plasite 4503 as a pit filler primer with a topcoat of 4500 FS. I wasn’t sure how it would go, but the final product turned out amazing and was very easy to apply. Everyone involved was incredibly happy with how this project turned out: customer, management, crew and manufacturer. We’ve been using this product ever since without issue thanks to Danny Janulek. ”
