

MARCH WINNER

# 75 Red Buckets of Surprises!

“ I was lucky enough to come to work and accompany Boccard at the opening of his “new headquarters” in Colombia more than 11 years ago. Since the beginning of the work in Colombia, we have had the support, accompaniment, and advice of the Carboline group. Deciding on a favorite product is not easy. When I think of Carbozinc, I think of its protective capacity, but if I see the Carbothane finish and its range of colors that we have worked on, my eyes fall in love. Carboguard, with the benefits of a primer but the finish almost like a polyurethane. And I cannot fail to mention the silicones that we have also used in repeated projects with excellent results (and finishes). All this to say that I don't have a favorite; they are all favorites.

We have made an incredible Boccard-Carboline team, which we have managed to maintain for the entire life of Boccard in Colombia, worth saying, more than 11 years.

I congratulate you for reaching that beautiful age of 75, and I wish you at least 75 more years in the market, always serving and innovating. #Carboline75th ”
