

APRIL WINNER

# 75 Red Buckets of Surprises!

“ I was talking to one of my accounts at our JCLicht downtown store about the paint at a job per Blue Star Properties. He asked if we did intumescent coatings. I told him we had the best intumescent in the market. I went to look at the job in last week of September, got the steel sizes, estimates for Firefilm III and 2 weeks later we were priming with 8239, Firefilm III and topcoating with Sanitile 155. The job was worth \$215k in materials in 2 1/2 months. Tim Aldrich and his Carboline Field Support Team came out early in the job to make sure products were being applied properly, etc. There will be add-ons to the job as well for the large roof, structural steel and possible epoxy flooring/ urethane mortar in the commercial kitchen. The Salt Shed will be the coolest indoor/ outdoor concert venue in Chicago. Sits right on the Chicago River looking at the Chicago Skyline. ”
