

JUNE WINNER

# 75 Red Buckets of Surprises!

“ Greetings, Carboline, and congratulations on 75 years of outstanding service! Power Coatings, Inc. has been selling/distributing Carboline products on and off for 20 of those years out of Nitro, WV, and is pleased to continue to house those red buckets! What sets Carboline apart from other manufacturers is its people. We are in the northeast region and, in my opinion, have the best support team! Angie and Stacie in customer service are true assets! They are quick to resolve issues and answer questions. Our rep Justin Gritt is excellent at communicating with our team on current and future issues and collaborating on upcoming projects – he is always a phone call or text away. I know there are many more components to this well-oiled machine that we don't personally see, so a big THANKS to everyone that has any part in fulfilling our needs; we appreciate you! ”
